

ACC-New Jersey is one of the five contracting centers of U.S. Army Contracting Command. It is located at Picatinny Arsenal and Joint Base McGuire-Dix-Lakehurst, N.J. ACC-NJ has a broad customer base with both on-site and globally remote customers.

ACC-New Jersey plans, directs, controls, manages and executes the full spectrum of contracting, acquisition support and business advisory services in support of major weapons, armaments, ammunition systems, information technology and enterprise systems for the Army and other Department of Defense customers. It supports all phases of research and development through initial and follow-on production. ACC-NJ utilizes the full spectrum of contract types and contract instruments in support of its customers, with an emphasis on cost and fixed price incentive type contracts. The center also has unique expertise with executing grants, cooperative agreements and other transaction agreements.

ACC-NJ's major customers include; Program Executive Office for Ammunition, PEO Soldier, PEO Enterprise Information Systems, PEO Command, Control and Communications-Tactical, PEO Ground Combat Systems, Armaments Research, Development and Engineering Center, Department of Defense Special Operations Command, Army Innovation Logistics Agency, Army Cyber Command and the Army Reserve.

ACC-NJ also services other customers to include the Army Research Laboratory, Defense Advanced Research Projects Agency and the Office of the Secretary of Defense. ACC-NJ's flexible organization allows for easy deployment of personnel and appropriate skill sets to accommodate customer demand.

In fiscal year 2014, the ACC-NJ contracting center awarded more than 9,000 contract actions obligating over \$2.3 billion. Currently, ACC-NJ manages approximately \$23 billion in active contracts.

ACC-NJ's expertise in source selection has earned it the designation, by ACC headquarters, as one of the Command's Source Selection Support Centers of Excellence. ACC-NJ has established state-of-the-art source selection facilities at both the Picatinny Arsenal and the JB McGuire-Dix-Lakehurst locations in order to support large-scale competitive acquisitions and source selection activities across the enterprise.

ACC-NJ's 360 civilian associates are highly educated. One hundred percent of the contracting associates have bachelor's degrees, 22 percent have completed postgraduate degrees, 98 percent are Defense Acquisition Workforce Improvement Act certified and 30 percent are certified in both contracting and another field.

ACC-NJ has two military Contracting Teams stationed both at Picatinny Arsenal and JB McGuire-Dix-Lakehurst. These four CT's are integrated with the nine contracting centers across ACC-NJ. Every Soldier is receiving training and contracting experience required to successfully support contingency operations.
